## OUR BANK SAVINGS SAFE UNLESS GERMANY WINS

There seems to have been a very invidious propaganda carried on, obviously by secret agents of Germany, to the effect that savings banks deposits are to be confiscated. It is difficult to believe that any person in America would credit such a report for an instance. Secretary McAdoo says that the absurdity of these statements is manifest, but in order to allay the fears of a few who might be alarmed by such reports, he repeats officially that these rumors are wholly baseless.

There is but one thing that will in the least put in danger of confiscation the savings of the American people, whether deposited in savings banks or other banks or invested in Liberty Bonds or any other investments, and that one thing is a German victory. It is not the American government that our people should fear, but the German government, and with the American soldiers fighting as they are in France and the American people supporting their government as they are in America, the American people, their liberty, their rights and their savings are safe.

The United States instead of confiscating or endangering the savings and other property of its people is defending them and theirs with all the irresistible might of this invincible Republic.

## AMERICANS IN FRANCE AMERICANS AT HOME

In speaking of the American soldiers in France, Premier Clemenceau said in the French House of Deputies:

"The French generals tell me the victory was peculiarly American in its conception and execution. I am much impressed with the magnificent discipline, daring and bravery of the American troops."

David Lloyd-George, Prime Minister of England, in speaking of our soldiers, said:

"We know that when they appear in the battle line they fight in a way worthy of the great traditions of their great country. This is in itself a source of support, sustenance and encouragement to all those who with anxious hearts are watching the conflict going on in France."

The English and French Prime Ministers have only expressed the opinion of the world of the American troops in France. Our soldiers' part in the great drive against the Germans is worthy of our great nation. On September 28 begins the campaign for the Fourth Liberty Loan, the drive toward victory which it is the part of the Americans at home to make a triumph and success. If we do our part as well as our soldiers do theirs, our response will be worthy of our great country and of our soldiers and sailors. And every good American will do his or her best to make it so.
